HOW TO PRINT

All files are ready-to-print and optimized for any home/office printer.*

This kit can be printed on any 8.5" x 11" paper, however a high-quality cardstock is recommended.

For an even more professional look, print at any local print shop and trim off excess white space.

*Note that colors and hues may vary between different monitors and printers.

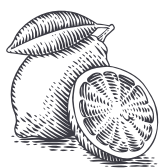

HOW TO MAKE Lemonade

WHAT YOU'LL NEED FOR
1 gallon of lemonade*

- 12 lemons
- 2 cups of white sugar
- 12 cups of water

*1 gallon of lemonade makes 16 cups, assuming 8-ounce serving size.

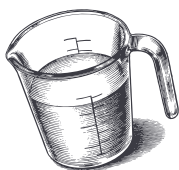

1. Juice the Lemons

Tip: Roll lemons to soften, cut in half and squeeze into a large measuring cup to control the juice amount. Remove any seeds.

2. Add Sugar

Tip: You can use granulated sugar or simple syrup. To make a simple syrup, combine equal parts sugar and water in a saucepan and bring to a boil until sugar dissolves, then cool. For less sweetness, try 1 1/2 cups of sugar.

3. Add water

4. Mix it (Real good!)

5. Serve over ice!
